

Facility Naming Program

Recognition for Major Donations

New and existing facilities may be named in recognition of donors to the College, Education Foundation, or Scholarship Foundation.

The name recognition may be provided to an individual, organization, or company that makes a significant monetary or in-kind contribution. The types of recognition and level of financial contribution are:

- \$10,000 to \$100,000: Naming of a specific location, such as classrooms, labs, meeting rooms and offices.
- \$100,000 to \$1,000,000: Naming of campus areas or spaces within buildings such as patios, lobbies, sports fields, the bookstore, or cafeteria.
- \$1,000,000+: Existing buildings may be named, such as the library or gymnasium on the main campus or other buildings at any SCC location.
- For naming of an entire new building, the contribution required may be the actual cost of construction.

Each naming recognition must be consistent with mission and goals of Solano Community College. The District Governing Board must approve the facility name upon a recommendation of the College Superintendent-President in consultation with the SCC Educational Foundation and/or SCC Scholarship Foundation as appropriate.

Please consider a gift today! Your contribution will make a lasting impact on the next generation of SCC students.

Major Construction Projects

Performing Arts Center Completed Fall 2017 and includes a modernization, lobby expansion, and facade upgrades.

Yarbrough Horticulture Institute This project will expand the existing Horticulture & Plant Science facility.

Automotive Technology

Suggested Donation Amounts for Naming

The Solano Community College Automotive Technology program needs your help! Please consider making a legacy donation that will help train the next generation of career-technical students in Solano County and beyond. Your donation will help fund equipment critical to the success and expansion of the program.

SCC developed a state-of-the-art Alternative and Renewable Fuel and Vehicle Technology Program with funding from the California Energy Commission. The College then re-established the Automotive Technician program in Spring 2013. Students have the option to earn an Automotive Technician Associate of Science Degree; or Certificates in Automatic Transmissions and Transaxles, Automotive Electrical and Body Systems, and/or Automotive Maintenance and Light Repair. In the fall of 2017, a new 30,000 sq. ft. facility was dedicated. Below is a list of the spaces available for naming.

Facility Naming Rights Automotive Technology Center	Suggested Donation Amount
Building Title Naming Rights	\$2,500,000
Public Spaces within the Project	
• Tutoring /Conference Room	\$50,000
