

Fund a Scholarship at SCC

Help a Student in Need Stay in College

Funding a scholarship is a meaningful way to leave a legacy and honor an important person in your life while helping a student achieve their education and career goals.

8,100 students at Solano Community College are from low and very-low income households. These students are taking actions to improve their future and quality of life. So at the SCC Educational Foundation, supporting students most in need is one of our highest priorities.

We offer those considering an investment in higher education the option of creating scholarships with customized student selection criteria. For example, a donor may select an area of study/major, eligibility criteria such as GPA or minimum units per semester, and financial need or academic success.

The amount of a donation to establish a scholarship varies from just \$250 for a one time scholarship to \$10,000 for each endowed (perpetual) scholarship. Donations may be added to an existing scholarship or a new scholarship created with naming rights for the donor. By supporting the scholarship program, you will be supporting the students most in need; not to give them a hand out, but a hand up.

Please join us! Your partnership is essential to ensure student success.

Why Scholarships Help Transform Lives

- Small scholarships make a huge difference to students struggling financially. These students need help with books, transportation, and other college expenses to stay enrolled.
- The connection between education and prosperity is direct and powerful. Without post-secondary education, the likelihood of unemployment increases significantly. By 2018, just 38% of jobs will be available to high school graduates.
- Students who earn a degree or certificate from a California Community College nearly double their earnings within three years.
